## SWIMMING POOL SAFETY

The swimming pool is unsupervised and for the exclusive use of camp-site clients.

Unsupervised swimming is "at the risk of users".

### General safety tips:

The pool can constitute a serious danger to your children. Drowning can happen very quickly. Children near to a pool require your constant vigilance and active surveillance, even if they can swim.

The barrier is not a substitute for common sense or personal responsibility. It is in no way intended to replace the vigilance of responsible adults who remain the key factor in protecting young children.

The presence of a parent and/or a responsible adult is always required when the pool is open.

Learn lifesaving.

In case of emergency: call 112 or 15 (UAS) or 18 (firefighters).

### Advice specific to security barriers:

Pay attention!

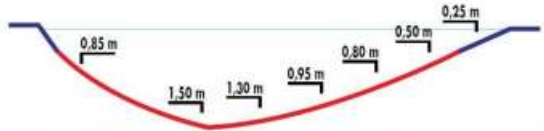

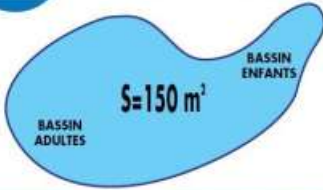

Security can only be ensured when the gated access is properly locked.

Be on alert for objects near the barrier that could encourage or make climbing the fence easy.
